ON-GRID & HYBRID INVERTERS (THEA & DEYE)

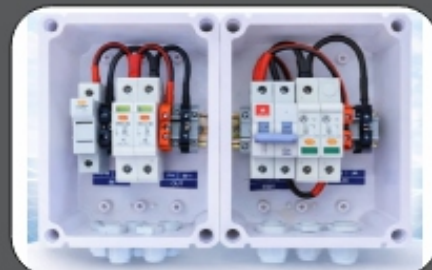

High-efficiency solar inverters designed for residential, commercial, and utility-scale solar power plants.

Hybrid Models Support Battery Integration, While On-grid Inverters Ensure Maximum Power Export With Advanced Monitoring Features.

SOLAR ACDB & DCDB (1 KW – 1000 KW)

Robustly Designed Ac And Dc Distribution Boards Ensuring Protection Against Short Circuits, Overloads,

Surge Voltages, And Reverse Current, Compliant With Mvre And Discom Standards.

SOLAR DC & AC WIRES & CABLES (POLYCAB & KEI)

Uv-resistant, Flame-retardant Solar Cables Engineered For Long-term Outdoor Performance With Minimal Power loss.

EARTHING KITS/LIGHTNING ARRESTERS (ESE & COPPER ROD TYPE)

Available in 17mm/16mm/14mm sizes with 60, 100 & 250 micron coating. Designed for low earth resistance, system safety, and long operational life in solar plants.

EARTH PIT CHAMBERS (6 INCH & 10 INCH)

Heavy-duty Chambers Designed For Protection And Easy Inspection Of Earthing Systems.

CABLE GLANDS

Dust And Moisture-proof Glands Ensuring Safe And Secure Cable Entry In Panels And Junction Boxes.

MC4 CONNECTORS (MAXVOLT, ELMEX & STAUBLI)

Weather-proof, Low-resistance Connectors Ensuring Secure And Reliable Dc Connections In Solar Installations.

THIMBLES (COPPER, ALUMINIUM & BIMETALLIC)

High-conductivity Cable Termination Accessories Offering Corrosion Resistance And Strong Electrical Connections.

UV/SS CABLE TIES (200MM / 300MM / 400MM)

Uv-stabilized Cable Ties Suitable For Outdoor Solar Cable Management With High Tensile Strength.

HT TERMINATION KITS (RPG RAYCHEM & 3M)

Reliable Termination Kits For Medium And High Voltage Cable Applications Ensuring Insulation And Moisture Protection.

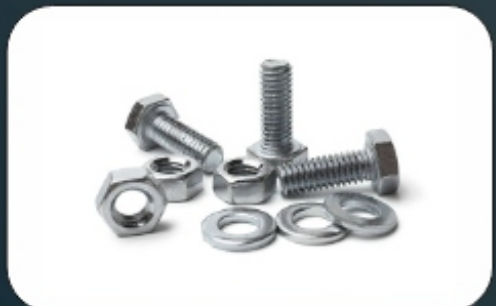

CABLE SLEEVES (LT/HT)

Protective Sleeves Enhancing Cable Insulation, Identification, And Mechanical Protection.

SS HARDWARE (ALL SIZES AVAILABLE)

High-grade Stainless Steel Fasteners For Corrosion-resistant And Durable Solar Mounting Structures.

MCB & SPD (HAVELLS, SIBBASS & NANO)

Electrical Protection Devices Safeguarding Solar Systems Against Overloads And Surge Voltages.

INSULATORS

High Dielectric Strength Insulators Used For Safe Electrical Isolation In Solar Plants.

EARTHING STRIPS

GI and copper earthing strips ensuring effective grounding and long service life.

CABLE TRAYS

Durable Cable Management Systems For Organized Routing Of Dc And Ac Cables.

PRE-GI & AL STRUCTURE

Heavy-duty solar mounting structures designed for strength, stability, and long-term use.

HDPE/DWC CONDUIT

High-Density Polyethylene Double Wall Corrugated Pipes are advanced, engineered piping systems widely used for infrastructure projects,
